

OANDA Australia Professional Accounts Margin Rates

Important notice: Margin rates

As an OANDA Australia Professional client, please be advised that while both OANDA v20 and OANDA One utilize static margin calculations, the specific margin rates applied to your positions vary between these two environments.

1. Platform-specific margin rates

The margin rates on your account are determined by the specific account type you are using. It is important to note that **OANDA One Pro** accounts operate with a single, defined set of margins that may not align with the rates on **OANDA v20**.

- **OANDA v20:** Professional accounts leverage is **up to 200:1** and Professional Plus accounts leverage is **up to 300:1**. These are maximum limits; the actual leverage available depends on the specific instrument being traded.
- **OANDA One:** Features its own independent margin schedule. The rates on OANDA One are standardized for all professional clients on that platform and do not follow the v20 Pro/Pro Plus accounts. Maximum leverage is up to 200:1.

2. Action required: Verify your margin rates

Because OANDA One margin rates are independent of OANDA v20 rates, we strongly recommend that you verify the requirements for your specific instruments before trading on the OANDA One platform.
